My AAGI Presentation
A. Person

November 11, 2025

Slide template including table

- Use the AAGI theme colours for emphasis (\color{aagiteal} for AAGI teal, \color{aagigreen} for AAGI green, and \color{aagiblack} for a AAGI black).

- Use \pause to add slide pauses to your presentation wherever you like.

- Use \footnote[frame]{\fullcite{blah}} to include footnotes at the bottom of the current slide like so.[1] References should be entered in bibtex/biblatex format in the references.bib file.

An example of an AAGI-themed table could be done as follows:

Table Heading	Next Heading	Another Heading
Table Subheading		
blah	2	3
