2.0.1 This is a subsubsection heading	2
3 Next Section	2
4 Capabilities demonstrated	3

1 Section

This template is designed for smaller (“one-page”) AAGI reports. The AAGI logo and partners footer appear only on this first page.

You can colour text/tables/etc. using the various AAGI palette colours. Use **AAGI Teal**, or **AAGI Bright Green**. Table 1 shows the standard palette colours available for use.

1.1 This is a subsection heading

This is an example of a reference (Person, 2024).

NOTE Use `\begin{note} ... \end{note}` to create coloured notes like this.

Example R code using {AAGIThemes}.

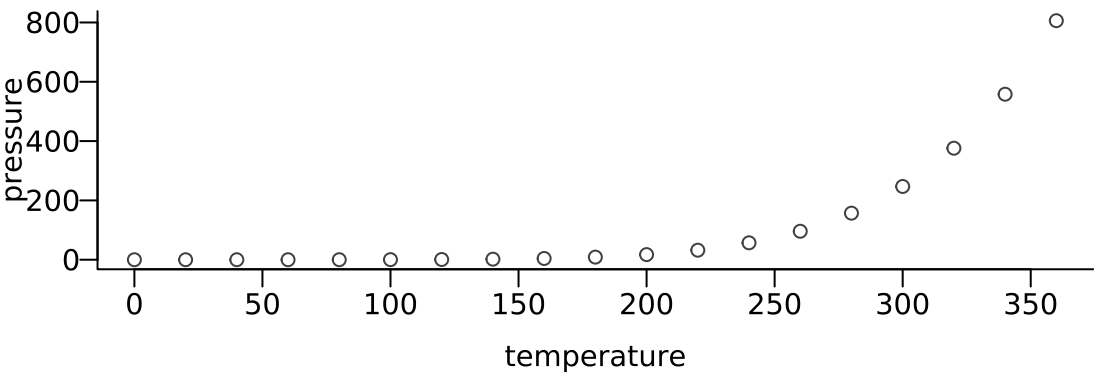

Figure 1: Here is a plot.

As shown in Figure 1, the pressure relationship is illustrated.

2 Table example using {flextable}

Table 2: An example table using {flextable}.

Ozone	Solar.R	Wind	Temp	Month	Day
41	190	7.4	67	5	1
36	118	8.0	72	5	2
12	149	12.6	74	5	3
18	313	11.5	62	5	4
		14.3	56	5	5
28		14.9	66	5	6

2.0.1 This is a subsubsection heading

Add body text here.

3 Next Section

Add as many sections as needed (Person, 2024).

4 Capabilities demonstrated

This short report template supports:

- Standard figures using `ggplot2`
- Tables via `flextable` and LaTeX
- Cross-referencing (`@tbl-example`, `@fig-example1`)
- Custom AAGI note environments
- Reproducible workflows via Quarto + R
